

## BT-3 Digital Thermometer and Hygrometer

### Features:

- Measure and display the indoor temperature and indoor humidity
- Automatically memorize the Max./Min. values of temperature and humidity
- Switch between °C/°F
- Clock function and alarming function
- 12/24 hour mode switch
- Recovery function on the Max./Min. values

### Technical parameters:

- Indoor temperature: 0°C~50°C (32°F~122°F) outdoor temperature: -50°C~70°C (-58°F~158°F)
- Humidity measuring range: 20%~99%(Relative humidity)
- Resolution: Temperature: 0.1°C; Humidity: 1%RH
- Power supply: one 7# alkaline battery
- Operation environment: Temperature: 0°C~50°C; Humidity: 5%~85%RH

### Operation instruction:

- **MAX/MIN:** Press this button when display indoor temperature will show MAX temperature , then press again will show MIN temperature, keep pressing 2 seconds will clear all the memory
- **MODE:COMMON MODE:** Switch between time and Alarm clock  
COMMON MODE: keep pressing 3 seconds ,will enter into set mode , Operation sequence is :the hour - minutes - confirm  
Alarm clock Mode: keep pressing 3 seconds, will enter into Alarm clock Mode, Operation sequence is :the hour - minutes - confirm
- **ADJ:** SET MODE: Add value  
COMMON MODE: Clock display:Switch 12/24 hours
- **CLEAR:** the maximum and minimum ( MAX/MIN ) memory
